

## alkitronic® Norwolf X DRIVER SYSTEM

- Most revolutionary hydraulic torque wrench system, **totally flat with no extrusions**
- Hydraulic power head with **two hydraulic hose system**
- Power head locks into the separate drives (**hex link and square drive**) without pins or screws
- Only **one high pressure o-ring** – easily changed with four bolts
- Easier to get into **confined areas** and around nuts in **hard to access spaces**.
- **Durability** of solid steel design, fewer parts and clean-lined construction
- Novel A/Fivel design - **360° or 360 x 360** with one piece add on
